Earth, nature, and human as well, the universe is miraculous existence.

A unique existence which cannot be replaced.

And,

All ones take a role as a part of history by living and existing together through recognizing each other.

To be conscious of the existence of other than self is also the work of looking yourself objectively.

I am spending my time with my young son and art materials by pondering these kinds of ideas.

By experiencing having my own child, I thought it is miraculous and thankful as same as many other parents.

Encountering with all things is unaccountable and a fate is unaccountable, too. I am just thankful even if it is good or bad.

By thinking over the once-in-a-lifetime chances of meeting,
I am looking forward to seeing you all again.
